

Addition

Objective

Addition of single digit numbers

Equipment

- Orienteering Control Markers
- Enrich School Orienteering Map
- Activity Sheet
- Clipboard (suggested)

Preparation

- Select and print Activity Sheets

Instructions

- Teacher to assign groups of 2 or 3 to their starting points.
- Pupils use the Enrich School Orienteering Map to locate their starting point and each of the control points indicated on their Activity Sheet.
- At each control point, pupils record the 3rd and 4th numbers from the control marker, to create an addition sum on their Activity Sheet.
- They then must add the two numbers together and record their answer on the Activity Sheet.

Other information

- As a follow-up, pupils could revisit markers and devise their own addition sums using numbers from the marker.
- This could also be extended into 2 digit + 2 digit addition sums.
