

Factors

Objective

Identify factors

Equipment

- Orienteering Control Markers
- Enrich School Orienteering Map
- Activity Sheet
- Clipboard (suggested)

Preparation

- Select and print Activity Sheets.

Instructions

- Teacher to assign groups of 2 or 3 to their starting points.
- Pupils use their Enrich School Orienteering Map to locate their starting point and each of the control points indicated on their Activity Sheets.
- Pupils insert the numbers from the control marker as instructed on their Activity Sheet (e.g. 3rd and 4th numbers).
- They then list all the factors for these numbers on their Activity Sheet.
- Pupils can list the factors for the individual numbers and the factors for the numbers combined together to make a two digit number.

Other information

- Remind pupils of the teacher's location for the task.
- Pupils to complete their first 5 questions and report back to the teacher.
- After a quick check the pupils can carry on with the activity.
