

Create a Character Story 2

1. Now plan your story around your character. Make some notes for each of the questions you thought about as you went round your course. You can add any other information that you think of which seems to fit with the character that you are creating.

Is your character brave or timid?

What is the thing that they are most afraid of?

What has happened to them to make them so afraid of this?

Who might help them overcome their fear?

What happens when they have to confront their fear?

Were they able to overcome their fear?
