

Oral Segmenting and Blending 2

Objective

Blend individual phonemes together to say words

Equipment

- Enrich Education Phonics / Number Markers

Preparation

- Plan the game around the layout of the school's markers - select which markers will be used for this game.
- Take the children around the markers that will be used. Point out the pictures and say their names with the children.
- Small group activity

Instructions

- The adult takes the group to a point between two or three of the markers.
- They tell the children to 'run to the'...then say the name of the picture by saying the initial Phoneme and after a short pause, the rest of the word
e.g. C ar, Qu een, E lephant, S nake etc.
- Children have to run to find the appropriate picture.
- The adult then calls out the name of another nearby marker picture in the same way and the children have to run to find it.
- The adult can then move with the children to a new location, near a different pair of markers and the game can continue.

Other information

- For additional challenge, this game could also be played by the adult calling the whole of the name of the picture in separate phonemes e.g. qu - ee - n , t - or - ch etc.
