

# Egg Parachute

This challenge will test your construction skills. You must construct a parachute that will deliver an egg safely to the ground when dropped from a height without cracking. This is a fun stem activity that will develop critical thinking and problem solving.

You will need:

- 1 egg (hard boiled to avoid too much mess)
- 1 large plastic bag
- 1 metre of string
- ½ metre of Sellotape

You will have to measure out all these items as part of the challenge.

Construct your parachute and see if it works, try different variations and record your results. Reviewing your ideas and seeing which designs work the best

## What you will need?

- 1 egg (hard boiled to avoid too much mess)
- 1 large plastic bag
- 1 metre of string
- ½ metre of Sellotape

## How do I gain credits for this Children's University activity?

Simply take part in the activity and evidence your wonderful work. Make a note of the special 'Activity Stamp Code' at the bottom of this page and take it into school. If you have a Passport to Learning call the Activity '*Enrich Education Online*' and write down the activity code in the '*Stamp of Approval*' section.
