Maths Relay

Get active and get your brain working!!

You will need to write down lots and lots of different maths problems on one piece of paper, depending on your ability make them as hard as possible, using addition, subtraction, multiplication and division.

When you have the problems note the answers down on another piece of paper and cut them out. Mix the answers up and place them at the other end of the room or the garden.

Ready, set, go!!

Ask a sibling or adult to read out different problem and you must run and find the correct answer and bring it back.

Once you have collected all the answers check if they are correct.

To make it more challenging maybe put some obstacles or physical challenges along the way i.e. start jumps, bear crawls etc

What you will need?

Pens or Pencils

Paper

Scissors

How do I gain credits for this Children's University activity?

Simply take part in the activity and evidence your wonderful work. Make a note of the special 'Activity Stamp Code' at the bottom of this page and take it into school. If you have a Passport to Learning call the Activity '*Enrich Education Online*' and write down the activity code in the '*Stamp of Approval*' section.

Activity Stamp Code :
