

# Les Nombres 1-10 (Using Enrich Phonics/Number Markers)

## Objective

To consolidate and become more competent in the use of numbers 1 – 10 in French.

## Equipment

- Enrich Phonics/Number Control Markers
- Activity Sheet

## Preparation

- Children should have been previously introduced to the numbers 1-10 in French.
- Children could do this activity in pairs.
- This activity should take place where the school's Phonics/Numbers Control Markers are located.
- Give each pair an Activity Sheet and pen/pencil.
- Explain to the children how to complete the Activity Sheet.

## Instructions

- Children locate the Phonics/Number Marker from the picture on their activity sheet.
- They write the first number from the marker (i.e. the one on the left hand side of the marker) on their sheet in digit/s.
- They must then write the French word for that number on their activity sheet. (They can either write it from memory or copy the correct word from the list on the activity sheet.)
- Each child should then say the word out loud to their partner in their best French accent.

## Other information

- This activity can be used for KS1 or 2, depending on their starting point of learning French.
- As a follow on/extension activity, children could practice writing/saying the numbers 1-10 in French in the correct order.
