

# Months of the Year 2

## Objective

To recall the months of the year and know the number of days in each month.

## Equipment

- Orienteering Control Markers
- Enrich School Orienteering Map
- Activity Sheet
- Clipboard (suggested)

## Preparation

- Select and print Activity Sheets.

## Instructions

- Teacher to assign groups of 2 or 3 to their starting points.
- Pupils use the Enrich School Orienteering Map to locate their starting point and each of the control points indicated on the Activity Sheets.
- At each control point, pupils fill in a specified number from the control marker on their Activity Sheet.
- Pupils then answer a question from the Activity Sheet, which requires them to identify which month of the year that number corresponds to, and also to identify the number of days in that month.
- They record their answer on their Activity Sheet.

## Other information

- Remind pupils of the teacher's location for the task.
- Pupils to complete their first 5 questions and report back to the teacher. After a quick check the pupils can carry on with the activity.
