

Time – 12 Hour Clock and 24 Hour Clock Times

Objective

To be able to convert between 12 and 24 hour clock times.

Equipment

- Orienteering Control Markers
- Enrich School Orienteering Map
- Activity Sheet
- Clipboard (suggested)

Preparation

- Select and print Activity Sheets.

Instructions

- Teacher to assign groups of 2 or 3 to their starting points.
- Pupils use the Enrich School Orienteering Map to locate their starting point and each of the control points indicated on the Activity Sheets.
- At each control point, pupils fill in numbers from the control marker as instructed on their Activity Sheet.
- Pupils then use the numbers to answer a question from their Activity Sheet, which requires them to convert times from 12 hour clock time to 24 hour clock time (and vice versa).

Other information

- Remind pupils of the teacher's location for the task.
- Pupils to complete their first 5 questions and report back to the teacher. After a quick check the pupils can carry on with the activity.
