

Roman Britain Time Travel Race

- Look at the list of events from Roman Britain.
- Decide which event came first. Put a number 1 next to this.
- Run to the control point and look at the control marker number (1st, 2nd, 3rd or 4th number). If it is a number 1, you were correct.
- Now decide which event came second. Put a number 2 next to this. Then run to the control point and check with the control marker number. If it is a 2, you were correct.
- Carry on until you have numbered all the events in the correct order.

| Events | Number the events in order – 1,2,3 etc. | Control point | Check with the number on the control marker |
